<sup>1</sup> In Bulgaria, Greece and Italy, the use of paysafecard is always linked to the online payment account my paysafecard. Local AML regulations in these countries demand one-time customer identity verification through paysafecard.

<sup>2</sup> In Bulgaria and Germany only my paysafecard status „Unlimited“ available.

<sup>3</sup> No my paysafecard status „Unlimited“ available.

<sup>4</sup> The USD face values in Uruguay are only available in the Redpagos point of sales.

<sup>5</sup> Junior cards for minors are available in the following face values: BE: 5, 10, 25 EUR, FR: 10, 25 EUR, NL: 5, 10, 25 EUR, UK: 10, 25, 50, 75 GBP

<sup>6</sup> The USD face values in Peru are only available in the Safety Pay online shop.

<sup>7</sup> Additional face values available at Paypoint POS only.

<sup>8</sup> In these countries only my paysafecard administration tool is available.

<sup>9</sup> Depending on the platform on which a customer pays, there are two different types available: paysafecard gold (gambling platforms); paysafecard classic (all other online platforms, like games and entertainment)
